The unspoiled beauty of the Costa Smeralda, its singular charms reserved for the privilege of few, a hotel perched like an ancient fishermen village above the unique turquoise coastline, where luxury is never ostentatious but rather suggested. The famous Jacques Couëlle's architecture is perfectly integrated within the surrounding landscape.

A wooden pier overhangs the crystalline sea water and the beach is surrounded by typical Sardinian plants such as myrtle. The characteristic Sardinian cliffs facing the bay create the unique atmosphere of one of the most beautiful landscapes of all Mediterranean coasts.

124 guestrooms, several Junior Suites and one Presidential Suite with private pool and a terrace with view onto the bay make the Cala di Volpe a unique hotel, named by "Condé Nast Traveller" as one of the best places to stay. The restaurant was named in 2005 as the best of the world while its wine cellar "La Cave" received the "Best Award of Excellence" from the Wine Spectator magazine in 2006.

Like the other Starwood Hotels & Resorts (Cervo Hotel, Hotel Pitrezza and Hotel Romazzino), the Hotel Cala di Volpe offers a very special way to experience your holiday in Costa Smeralda, for example while enjoying the concerts with the most famous international singers like Donna Summer on July, 25th or Craig David on August, 13th.
